meteorology centre

# Potential problems related to IPPU reporting (1)

- According to IPCC 2006 there are new CRF categories and some sectors are aggregated/divided and new ones:
- 2.A Mineral industry
  - 2.A.1 Cement production;
  - 2.A.2 Lime production (in Lime and Steel production facilities);
  - 2.A.3 Glass production;
  - 2.A.4 Other process uses of carbonates;
    - 2.A.4.a Ceramics (bricks and tiles production)
    - 2.A.4.d Other (NO<sub>x</sub> and NMVOC emissions from Cement production)
- 2.C Metal industry
  - 2.C.1 Iron and Steel production
- 2.D Non- energy Products from Fuels and Solvent Use
  - 2.D.1 Lubricant use
  - 2.D.2 Paraffin Wax use
  - 2.D.3 Other
    - Solvent use
    - Road paving with asphalt
    - Asphalt roofing
    - Urea use

# Potential problems related to IPPU reporting (2)

- **2.F Product Uses as Substitutes for ODS**
  - 2.F.1 Refrigeration and Air conditioning;
  - 2.F.2 Foam Blowing Agents;
  - 2.F.3 Fire Protection;
  - 2.F.4 Aerosols;
- **2.G Other Product Manufacture and Use**
  - 2.G.1 Electrical Equipment;
  - 2.G.3 N<sub>2</sub>O from Product Uses;
    - 2.G.3.a Medical Applications
- **2.H Other**
  - 2.H.1 Pulp and paper production
  - 2.H.2 Food and beverages industry

# Potential problems related to IPPU reporting (2)

- From Energy sector there are overtake emissions from feedstocks under sector 2.D.3.
  - 2.D.3 Non- energy Products from Fuels and Solvent Use
    - 2.D.1 Lubricant use
    - 2.D.2 Paraffin Wax use
    - 2.D.3 Other (Urea use from transport subsector)
- White spirits and bitumen are still reported under Energy sector due to no updated methodology for these two feedstocks (?)
- Bricks production emissions are reported in one line in CRF (previously there was reported emissions divided in 1990-1993 produced amount with different used methodology and after reported “ IE” and 1994-2012 data with other used calculation method). (Resolved in new CRF).

# Improvements in QA/QC

- Problems are recognized as solvable in new CRF Reporter;
- There are planned to work strictly observe deadlines and by time shedule;
- More closer cooperate with other experts and other countries with common problems or common situation (Wiki forum);

# Thank you for attention!
