

# Low emission development as a long term strategy of the European Union

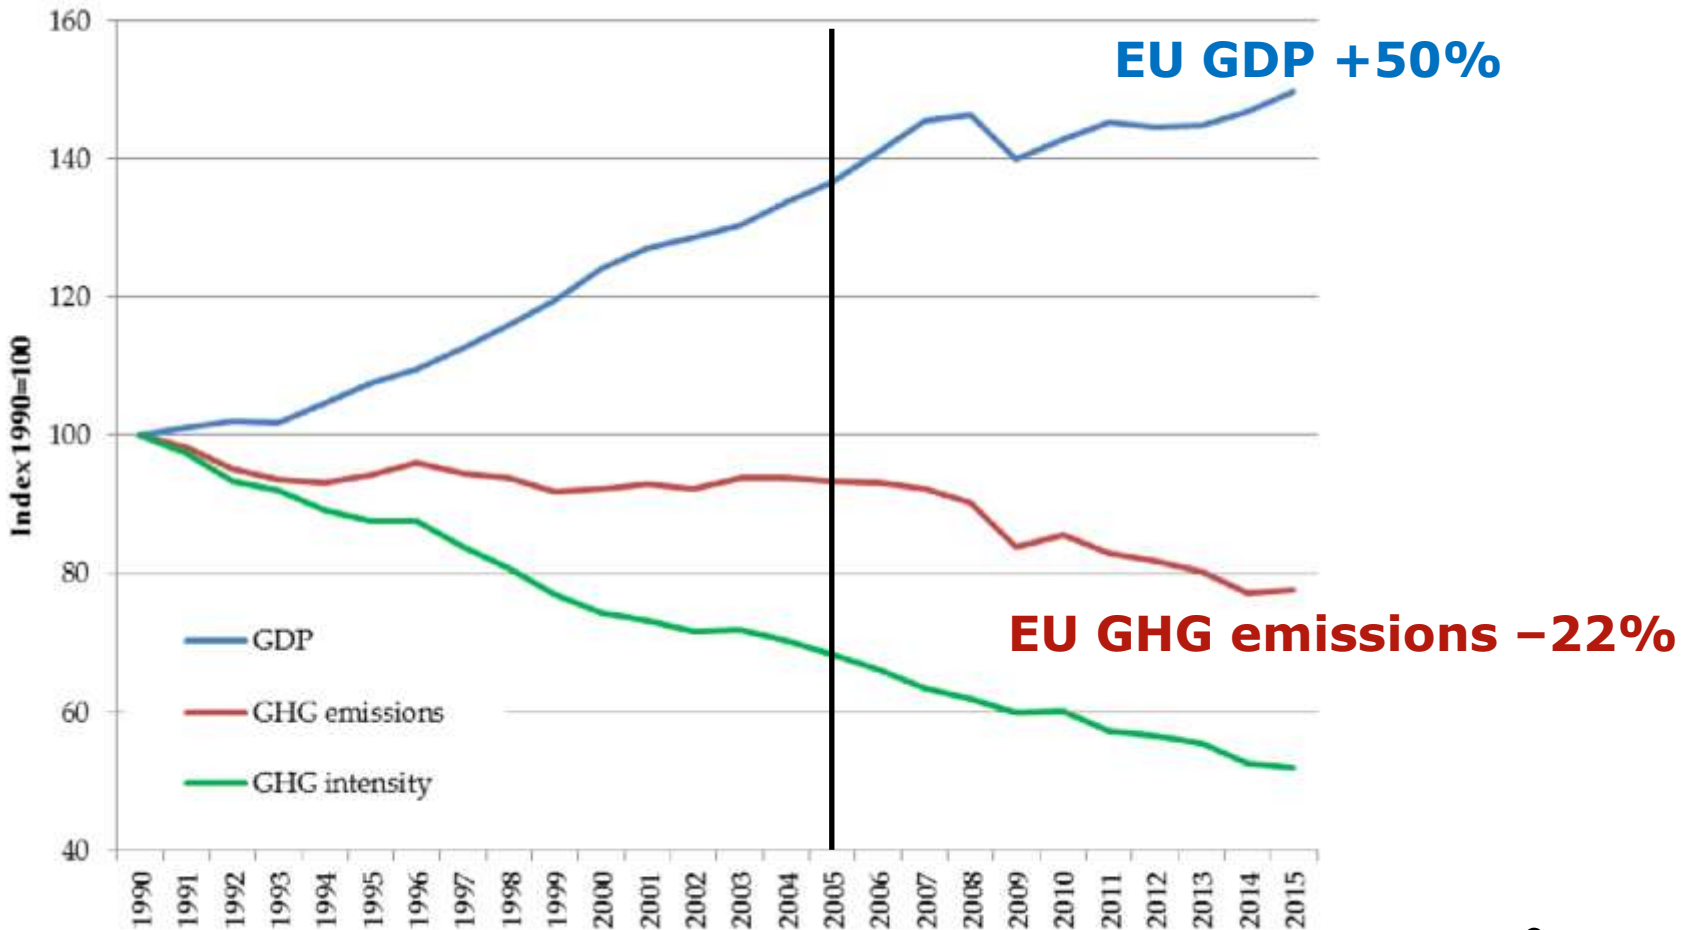

Riga – October 30, 2017

Artur Runge-Metzger  
Director, European Commission

# Outline

1. *A long-term strategy*
2. *Low emission development - Next milestones 2030*
  - **Four pillars of EU climate change policy**
  - **Energy policy**
  - **Mobility policy**
  - **Other policy areas**
3. *Outlook*

# Decoupling economic growth from greenhouse gas emissions

## 2050 Low Emission Roadmap

### 80% domestic reduction in 2050 is feasible:

- With currently available technologies,
- With behavioural change only induced through prices
- If all economic sectors contribute to a varying degree & pace.

### Efficient pathway and milestones:

- -25% in 2020
- -40% in 2030
- -60% in 2040

# Three pillars of EU climate policy reducing greenhouse gas emissions until 2030

## Emissions trading

**-43 %**

*Including:  
Power/Energy Sector  
and Industry, Aviation*

**Max 100  
MtCO<sub>2</sub>eq**

## Non-emissions trading

**-30 %**

### Effort sharing

**-30 %**

*Including: road  
transport,  
buildings,  
waste,  
agriculture non  
CO<sub>2</sub>*

**Full  
flexibility**

**Max 280  
MtCO<sub>2</sub>eq**

**Land use,  
land use  
change,  
forestry**

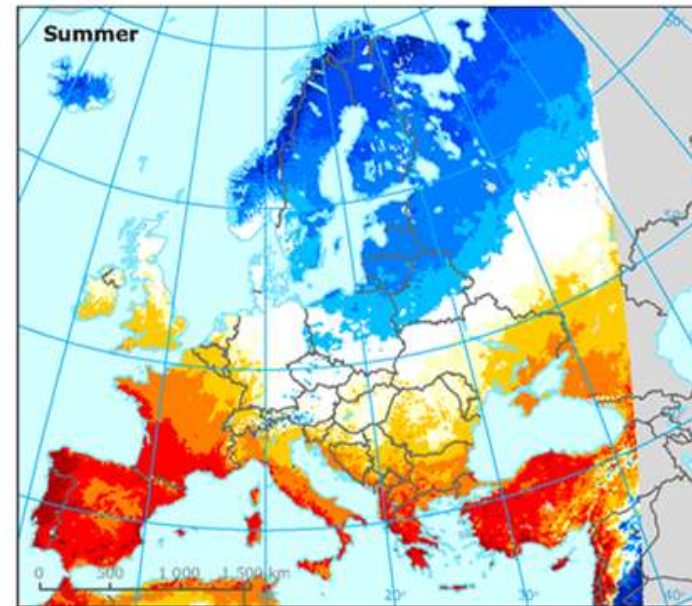

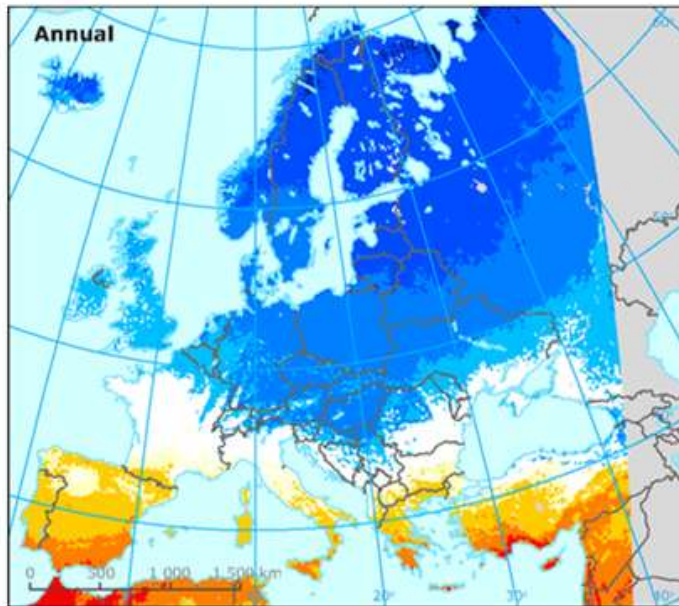

**"No-Debit"**

# Fourth pillar of EU climate policy adapting to the adverse effects of climate change

Projected changes in mean annual and summer precipitation (%) in the period 2071-2100 compared to the baseline period 1971-2000

**Annual**

**Summer**

Projected change in annual and summer precipitation (%)

# Accompanying EU energy policies until 2030

Annual State of the Energy Union

February 2016: Sustainable energy security package

November 2016: Clean energy for all Europeans package

**New Electricity  
Market Design**  
(Regulation internal  
market electricity)

**Energy Efficiency**  
(Energy Efficiency  
Directive, European  
Performance of  
Buildings Directive)

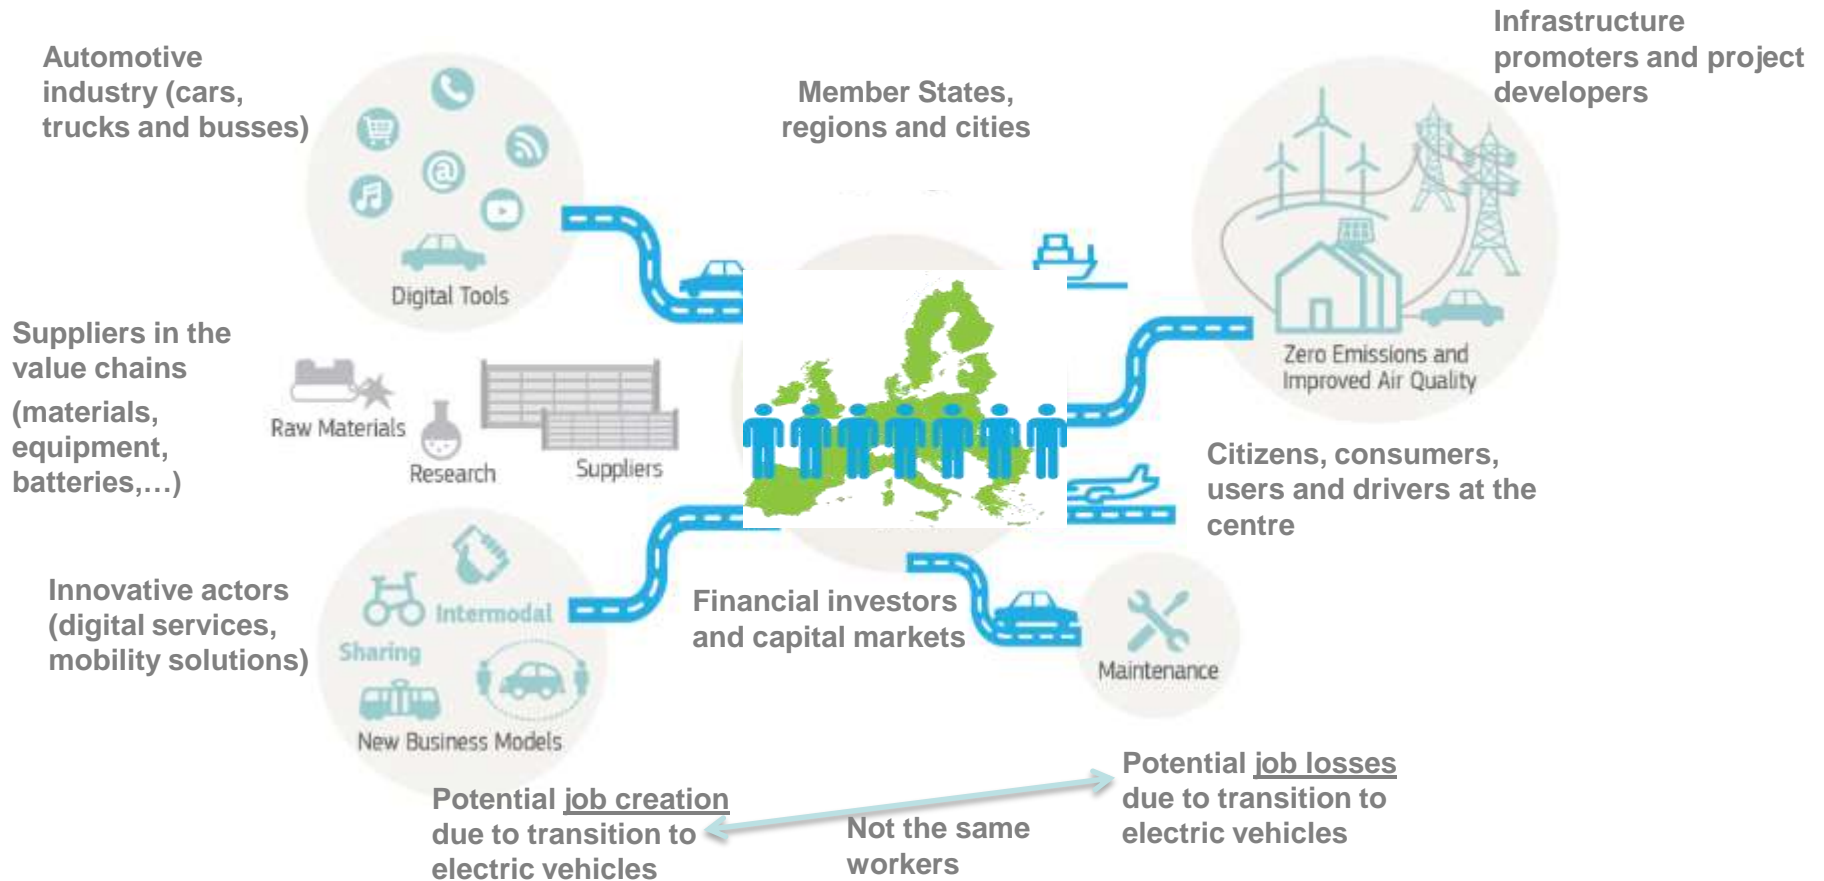

**Renewables**  
(Revised Renewable  
Energy Directive)

**Energy Union  
Governance**  
(Governance  
Regulation)

# The upcoming mobility package until 2030

# Integrating climate and energy objectives into all policy areas until 2030

## Energy Union and Climate Action

### Investment Plan

Attracting additional  
Investments

### Skills Agenda

Adapting the  
workforce

### Digital Single Market

Empowering citizens  
and consumers

### Circular Economy

Achieving a resource efficient,  
low-carbon economy

### Innovation

Bringing new technologies  
from research to market

### Capital Markets Union

Triggering sustainable  
finance for the  
clean economy

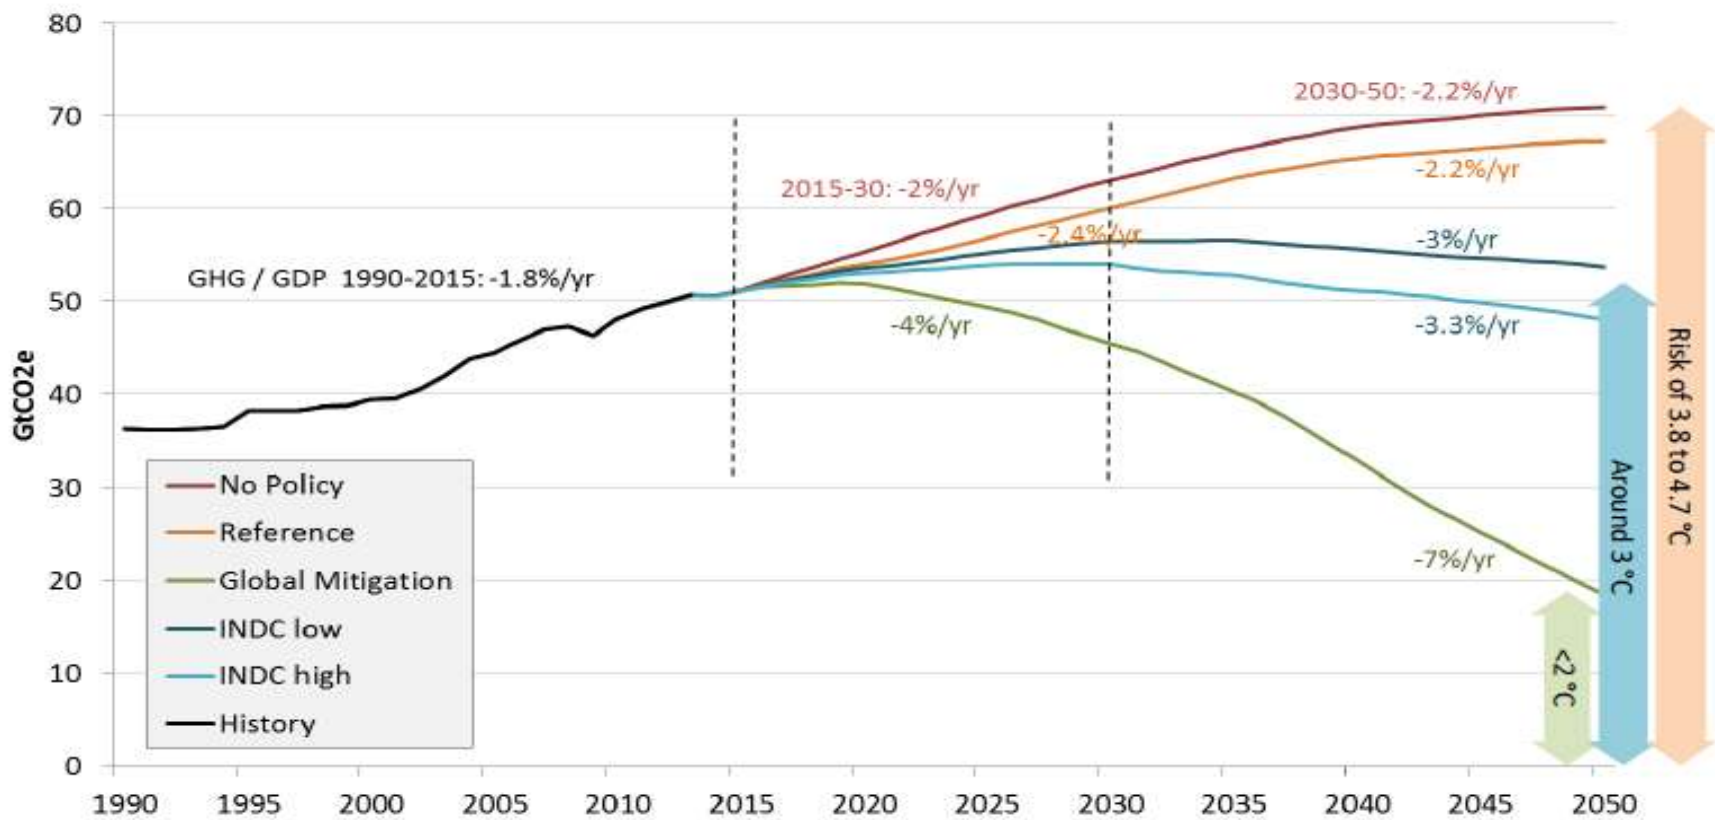

## Outlook: EU 2030

EU is set to become the most greenhouse gas efficient economy in the G20
