

LUA RESEARCH INSTITUTE OF AGRICULTURE Skriveri

www.zzi.llu.lv (only latvian)

Jurmala 27.05.2014

Institute is separated in three parts:

- **Infrastructure (6)**
- **Department of breeding (13)**
- **Department of agrotehnology (6)**

Together we are 25 employees

**Research Institute of Agriculture
works with the perennial grass
breeding and agronomie
research since 1956 on about
150 ha land.**

The main trends of scientific researches of Breeding dep.:

- selection and seed production of perennial grasses and legume,**
- researches and seed production in organic farming (43) ha.**

EU PROJECTS

Breeding department has co-operation project with Forest Research Institute 'Silava':

ERDF Project

'Elaboration of models for establishment and management of multifunctional plantations of short rotation energy crops and deciduous trees'

No2010/0268/2DP/2.1.1.1.0/10/APIA/VIAA/118 ended 2013.

16 ha plantation of short rotation energy crops and trees

Jurmala 27.05.2014

The main trends of scientific researches of Agrotechnology dep.:

- Fertilization of field crops,
- Researches of agricultural pollution reduction in environment.
- Plant variety testing

EU PROJECTS

Department of agrotechnology:

*European Regional Development Fund
Project*

*‘Development of technology of reduction of
environmental pollution using mineral
fertilizers.’*

*No.010/0232/2DP/2.1.1.1.0/10/APIA/VIAA/097
ended 2013.*

The long-term drain field since 1981

to study the influence of N, P and K
fertilizer rates on yields, fertilizer
utilization, leaching of plant nutrients.

In seminars, lectures and field days we provide advices, for farmers about the grass species, meadow and pasture grasses installation, and agronomy of field crops.

A group of approximately ten people, including men and women of various ages, are standing in a field of green grass. They appear to be engaged in a discussion or a field day. The background shows a flat landscape with some trees in the distance under a bright sky. The text is overlaid on the image in a large, bold, green font.

Thank you for attention!
