

Training seminar on QA/QC procedures in Land use, Land-use change and Forestry sector

18th – 19th May, 2015, Rīga

Ministry of Environmental Protection and Regional Development (MEPRD)

Peldu street 25, Riga, Room 101

Preliminary Agenda

Monday, 18 May 2015

9.00	Welcome coffee
	<p>Introducing. Objectives and outline of the seminar <i>Opening by Māra Melnbārde/Agita Gancone, MEPRD</i></p>
	<p>Key issues of implementation of IPCC 2006 and IPCC 2013 Wetlands supplement guidelines Norwegian experience Latvian experience <i>Discussions.</i> Activity data and emission data interpretation especially in drained and non-drained soils</p>
	<p>NOR experience on preparation of NIR chapters on LULUCF and KP-LULUCF Chapters, structure and level of particularization especially in KP-LULUCF part except cropland and grassland. Currently Latvia does not have an appropriate template – look at Norwegian example. <i>Discussions.</i></p>
	Coffee break
	<p>Norwegian and Latvian experts experience on data input in the CRF Reporter (main problems, consistency between subsectors) <i>Discussions.</i> Issues regarding consistency to avoid double accounting and other issues related to CRF Reporter.</p>

	<p>Consistent reporting of N₂O emissions from managed organic soils and other sources in agriculture and LULUCF sectors</p> <p><i>Discussions.</i> E.g. how to deal with reporting of N₂O emissions in consistency between two sectors (agriculture and forestry), avoiding of double counting or underestimation.</p>
12.30 – 13.30	Lunch
	<p>Drained inland mineral soils and drainage systems on mineral soils (separate case of implementation of IPCC 2013 Wetlands supplement)</p> <p>LAT experience. <i>Norway does not report this as a sub-class. Latvia's experience in implementing it in the reporting.</i></p>
	<p>Cropland and grassland management systems – recommendations for splitting of land for Tier 1 calculations</p> <p>NOR experience</p> <p>LAT Andis Lazdiņš</p> <p><i>Discussions</i></p>
	Coffee break
	<p>Project activity "QA/QC in land use, land-use change and forestry sectors" Norwegian expert input – result analysis and evaluation of LSFRI "Silava" research "Improvement of QA /QC system in land use, land-use change and forestry sectors"</p> <p><i>Discussions.</i> Discussion of the "QA/QC in LULUCF" report. "Silava" will prepare the draft report before.</p>
	Summary and wrap up of first day
	End of the day

Tuesday, 19 May 2015

9.00	Welcome coffee
	<p>QA/QC procedures in LULUCF, KP-LULUCF accounting and Verification procedures</p> <p>Manual for QA/QC procedures for Norway LULUCF and LULUCF KP (structure and content).</p> <p>Norwegian examples of verification and quality assurance projects held in Norway for LULUCF sector.</p> <p><i>Discussions</i></p>
	Coffee break

	QA/QC procedures in LULUCF, KP-LULUCF accounting and Verification procedures (cont.)
	Discussions and summary of the second day.
13.30	Lunch
